Allowable Subject Matter

Claims 1, 9 and 19-29 are allowed over the prior art of record.

hole until the encapsulant reaches the radially displaced holes and thereafter stopping the injection of encapsulant through the centrally located hole and injecting encapsulant through the radially displaced holes.

Regarding claim 9, claim 9 is allowable for the reasons given in claim 1 because of its dependency status from claim 1.

Regarding claim 19, the references of the Prior Art of record fails to teach or suggest the combination of the limitations as set forth in claim 19, and specifically comprising the limitation of injecting encapsulant into an electronic device at a first location, and when the encapsulant reaches a second location spaced from the first location, injecting encapsulant at a location proximate to the second location.

Regarding claims 20-25, claims 20-25 are allowable for the reasons given in claim 19 because of their dependency status from claim 19.

Regarding claim 26, the references of the Prior Art of record fails to teach or suggest the combination of the limitations as set forth in claim 26, and specifically comprising the limitation of coupling the first and second surface of an electronic device, and injecting an encapsulant between the first and second surfaces through the centrally located hole until the encapsulant reaches the radially displaced hole and thereafter stopping the injection from encapsulant through the centrally located hole and injecting encapsulant through the radially displaced holes.

Regarding claims 27-29, claims 27-29 are allowable for the reasons given in claim 26 because of their dependency status from claim 26.
